## **Project Engineer**

Furtado & Associates, Inc. (F&A) is a growing consulting engineering firm in Seattle, WA., specializing in land surveying, ROW engineering, geospatial services and construction management. We are a small, privately-held firm that works on public infrastructure projects throughout the Puget Sound area, including Sound Transit's Link Light Rail Extensions and numerous other public infrastructure projects. Our office currently has an opportunity for a professional and experienced individual to fill the role of Project Engineer. In this position, the successful applicant will be responsible for working with the Project Manager to deliver high quality plan sets to our clients. This is an excellent opportunity for the right individual to join an established and dynamic organization that is experiencing significant growth.

### **Job Responsibilities:**

The Project Engineer will work under the direction of the Project Manager, assisting on the development of Plans and Specifications for large engineering projects. F&A works primarily on large public works projects in the Seattle area, in this role you will be helping our clients deliver on these important projects.

Job responsibilities will include, but are not limited to:

- Manage and oversee the development of PS&E Right of Way and Easement plan sets for large multi-discipline light rail projects.
- Continually coordinate with Engineering staff and corresponding departments
- Review and process drawings and submittals
- Review plans and specifications
- Perform engineering calculations and design
- Assist with writing project specifications
- Assist with preparing engineering/technical documents
- Preparation of plans using CADD
- Assist in preparing exhibits for public meetings
- Perform research and review of agency standards
- Other duties as assigned by Project Manager

### **Qualifications & Requirements:**

- Licensed Professional Engineer or ability to obtain license
- Degree in Engineering
- Experience developing and delivering plan sets, may offset license requirement.
- Candidates should be highly motivated and dependable
- Basic understanding of AutoCAD Civil 3D, Microsoft Word, Excel, SharePoint programs
- Ability to quickly learn other supporting software a plus
- Fundamental knowledge of engineering, land surveying or construction.
- Self-motivated, able to work in a fast-paced environment, and able to complete assignments quickly and in a timely fashion.
